

WANT TO SHARE YOUR EXPERIENCES AS A PARENT OF AN AUTISTIC CHILD?

Are you?

- A caregiver of a child aged 6-11 diagnosed with autism?
- Interested in sharing your experiences and insights?

Participate in a Research Study!

We want to hear from you!

We are conducting a research study to understand how neurotypical caregivers perceive and support the development of autistic identity in their children.

Your participation involves:

- A 60-minute interview with a potential 30-minute follow-up
- Sharing your perspectives on autistic identity and your experiences as a caregiver

Your insights will help us:

- Gain a deeper understanding of the challenges and rewards of supporting autistic children
- Develop more effective interventions and support services for families like yours
