PRESS RELEASE
FOR IMMEDIATE DISTRIBUTION

Groundbreaking for Mac's Family Fun Time Mini Golf Course

Congratulations are in order for Justin and Hillary McLaughlin at Highland's very own premiere Family Entertainment Center, Mac's Family Fun Time!

They hosted a groundbreaking ceremony for their new 18 Hole Championship Mini golf Course! The one of a kind custom designed course will feature both skill and luck shots, gravity contours, and wheelchair accessibility.

Owner Justin McLaughlin had this to say about the next step in the growth of Mac's: "I'm most proud of the relationships we've fostered over many years who are involved in this project. These aren't just business relationships, these are people I consider friends."

Hillary McLaughlin added: "With this attraction, we'll be able to serve an even wider audience of our community. Mini Golf is something the whole family can participate in!"

Construction is expected to take two to three months to complete. Mac's will continue to be open normal hours during the construction process: Friday 3 to 8 pm, Saturday and Sunday from 11 am to 8 pm. The Mini Golf grand opening will be announced as soon as possible. Stay informed via Facebook or their website.
