YMCA OF CENTRAL NEW YORK WORKPLACE SAFETY & CHILD ABUSE PREVENTION TRAINING 2025	
TRAINING TOPIC	TRAINING MONTH
Program Monitoring Quick Checks	August

Program Quick Checks enable supervisors of program departments to actively oversee their teams. This process ensures that supervisors consistently monitor program quality, compliance, safety, and adherence to policies and safety standards by staff.

Our supervisors and administrators conduct both scheduled and random observations across all programs, locations, and facilities. They engage in spontaneous and planned conversations with both adult and youth members, hold group and individual supervision and training meetings, and review program documentation to guarantee that safety standards are maintained at all times.

By employing a variety of supervision methods, supervisors gain a more comprehensive and accurate understanding of how safely programs are operating, while staff are aware that they will be held accountable for their actions.
