NOT FOR USE IN OREGON.

¹ A feature offered "by current company practice" is not a contractual guarantee of this annuity contract and can be removed or changed at any time.

² Net Premium is equal to all premium received during the premium period minus all gross withdrawals (excluding GLWB rider charges).

³ The LPA multiplier can be paid out for a maximum of five annual payments as long as the client continues to meet the requirements on each payment date. Not available until the beginning of the third contract year. Limitations and restrictions apply. Refer to the contract for complete details.

All rates and features are subject to change. Please consult your financial professional for the current information.

The term financial professional is not intended to imply engagement in an advisory business in which compensation is not related to sales. Financial professionals that are insurance licensed will be paid a commission on the sale of an insurance product.

Fixed index annuities are not a direct investment in the stock market. They are long-term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from the accumulation value for optional benefit riders or strategy fees or charges associated with allocations to enhanced crediting methods could exceed interest credited to the accumulation value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index.
