

IRRIGATION CHECKLIST

NOT TECHY? NEED HELP?

Call Leafy Landscapes at 386-492-8862
to schedule your irrigation inspection

SPRINKLERS

Check the following items while a station/zone is running:

- Broken or damaged sprinklers - Replace
- Check for water leaking from the base of the riser of each sprinkler - Replace
- Nozzles on each sprinkler are spraying evenly - Clean filter or replace nozzle
- Coverage - Make adjustments as needed - Avoid water spraying on your house, driveway, etc.

Check the following items when a station/zone has just been turned off:

- Check to see if any sprinklers have not retracted after turning the station/zone off - Replace

VALVES

- Locate the valve box or index valve
- Clean out the valve box as needed - Be careful not to damage wires when cleaning/digging
- Check for any signs of a valve leaking
- Inspect the solenoids and wire connections

CONTROLLER

- Update current time & date
- Check and adjust start times (mornings are best)
- Check and adjust run times
- Check and adjust water days
- Check and adjust rain sensor - Check connections

NOTES:
