

# MONDAY, APRIL 26th 8 pm

We look forward to welcoming to Kenton

## SIR PAUL NURSE

RATHER THAN GIVE A TALK, WE ARE VERY FORTUNATE IN THAT SIR PAUL IS HAPPY TO ANSWER QUESTIONS ON HIS EXTENSIVE CAREER AND HOBBIES  
PLEASE HAVE YOUR QUESTIONS READY  
OR SEND THEM IN BEFORE THE MEETING

Paul Nurse is a geneticist and cell biologist who has worked on how the eukaryotic cell cycle is controlled. His major work has been on the cyclin dependent protein kinases and how they regulate cell reproduction. He is Director of the Francis Crick Institute in London, and has served as President of the Royal Society, Chief Executive of Cancer Research UK and President of Rockefeller University. He shared the 2001 Nobel Prize in Physiology or Medicine and has received the Albert Lasker Award, the Gairdner Award, the Louis Jeantet Prize and the Royal Society's Royal and Copley Medals. He was knighted by The Queen in 1999, received the Legion d'honneur in 2003 from France, and the Order of the Rising Sun in 2018 from Japan. He served for 15 years on the Council of Science and Technology, advising the Prime Minister and Cabinet, and is presently a Chief Scientific Advisor for the European Union.

As well as his many medical accomplishments, amazingly Paul also has time to fly planes and engage in varied hobbies

Paul flies gliders and vintage aeroplanes and has been a qualified bush pilot. He also likes the theatre, hill-walking, going to museums and art galleries, and running very slowly.
