

St. Anne's-Belfield School

Dear Rising Grades 1 – 6 Parents,

As the school year winds down, we encourage you to continue your child's mathematical development. Children should be given opportunities to play, explore and develop mathematical ideas. Below is a suggested list of activities you and your child can engage in over the summer to help foster a love of math and continue practicing skills learned over the school year. Please also know that Reflex accounts will stay active throughout the summer.

On the next page, you will find lists of games and activities by grade to help your child develop math skills while having fun!

This is far from a comprehensive list, but should put you on the path to finding activities that your child will enjoy. I look forward to seeing your child in August!

Sincerely,

Karen LeMaire, Becky Malin,
Melissa Scott, & Gita Howeth
Grades K - 4 Math Team

Sara Kronstain
Grade 5 Math Teacher,
Grades K - 6 Mathematics Department Chair
