

### **Student Stock Market Game Begins in October!**

Is your Wildcat interested in the Stock Market? Now is the time to sign up for the Stock Market Game! Students will receive a username and password to access the game, and \$100,000 in virtual money to invest! Kids may have up to five members on a team. Please send Carol Reese an email at [creese@eanesisd.net](mailto:creese@eanesisd.net). Include your student's first and last name, grade, and the names of any team members with whom they'd like to work, if any. This activity is a virtual activity, and is open to all WRMS students in grades 6-8. The game begins October 12.

### **It's Destination Imagination Creative Problem-Solving Time!**

If you have a student who is a creative thinker and enjoys open-ended challenges, then "DI" is a great outlet!! Create a team with up to seven members, and design a solution to an open-ended challenge in one of six challenge areas such as science, structural engineering, improv, fine arts, service learning, or technical engineering! Although students may solve the challenges remotely or in-person, all tournaments will be virtual this year. Please contact Carol Reese at [creese@eanesisd.net](mailto:creese@eanesisd.net) for more information.

### **Future City Engineering Is Out of This World!**

The Future City Engineering program is designed for middle school students in grades 6-8. With a minimum of three people on a team, students will research and write an essay about overcoming obstacles of lunar living, design a lunar city of the future demonstrating their innovative solutions, and present their solutions to a panel of engineers. Although students may solve the challenges remotely or in-person, all tournaments will be virtual this year. A second competition with a similar theme, Cities in Space, will also be available; students may wish to use their research to enter both! Please contact Carol Reese at [creese@eanesisd.net](mailto:creese@eanesisd.net) for more information.

### **Model UN**

Does your student like to discuss global events? Would your child like to be a delegate for a country and make powerful decisions to improve our world, persuading others of the wisdom of their ideas? Encourage your Wildcat to join Model UN! Our meetings will be virtual and lively as we work with the officers from the WHS Model UN organization. Our first meeting will be in October, dates TBA. Please send Carol Reese an email at [creese@eanesisd.net](mailto:creese@eanesisd.net) with your child's first and last name and grade level.

Note: All of these activities are open to all WRMS students in grades 6-8!
