

Dear New Families,

Every morning we ask Crew and families to complete our at home daily wellness screening with Cleared4School which can be performed from your phone, laptop or other similar device.

Cleared4School is a COVID Wellness Screening App designed by Farforward, LLC founder Dr. Brian Benson and his wife Kaley Benson, RN. They created the App for their children's school in Baton Rouge, Louisiana., which has been open since July and has had no community COVID

Our new families have either already received or will be receiving an email from noreply@farforward.com inviting you to register with Cleared4School. You will need the information provided in this email to register your account. It is recommended that if you do not receive an email by this Friday or Saturday from Farforward, LLC, to check your Junk/Spam folder. If you have any questions or need clarifications about accessing the Cleared4School App or are having trouble with its operation, please contact us at healthandsafety@marinmontessori.org .

In order for the carline Crew to know which students have been cleared or not cleared before arriving in carline, we do ask that you complete Cleared4School for your families by **7:30am** every morning.

Please do not wait until you are in carline to complete Cleared4School. Additionally, we are now asking parents/guardians to take their child(ren)'s temperature at home. We think this is an important change as there are documented concerns regarding the accuracy of the touchless thermometers, particularly when used outside. This is another reason to make sure you complete Cleared4School before leaving home.

If you are "Not Cleared," you will receive an email from wellnesscheck@marinmontessori.org with details on required next steps. If you know in advance that your child will not be cleared, you may send an email directly to wellnesscheck@marinmontessori.org. If a student is not reporting to campus due to a vacation or distance learning, the family does not need to complete Cleared4School for their child that day.

Please review the [Cleared4School Information and Instructions](#) for a step by step guide on how to download the icon onto your device, log on, and complete the wellness check. If you have any trouble, please email healthandwellness@marinmontessori.org. And please don't be shy about sending feedback!

Thank you!
