

March 27, 2020

Dear Educator:

During this exceptional time, Curriculum Associates is making adjustments to our programs to make them available to as many students as possible at **NO CHARGE** through June 2020. The resources now available for your consideration are the following:

## Math Teacher Toolbox: Printable resources

A digital collection of standards-based resources, including Lessons, Multimedia Content and Assessments that introduce new concepts, reteach standards, or help students learn prerequisite skills from earlier grades. Schools all over the world have been using the Teacher Toolbox as a tool to supplement ANY Math program in the classroom. We are now offering this tool at **NO CHARGE** to help you navigate distance learning.

To start your pilot, simply follow these steps:

1. Go to [Teacher-Toolbox.com](https://Teacher-Toolbox.com)
2. Follow the steps to create an account
3. Choose Vermont as your state and CA Global Educator as your school
4. Enter the code **TryMath2020**
5. ENJOY exploring all the resources the Toolbox has to offer

## ***Reading and Math Online Instruction***

- Given the extraordinary situation unfolding across the country, we have extended i-Ready Instruction – our online lessons in Reading and Math – to over 1 Million students at **NO CHARGE** through June 2020.
- Unlike typical implementations of *i-Ready*, which require students to take the i-Ready Diagnostic before beginning instruction, we have made it possible for teachers to assign i-Ready lessons to students **WITHOUT** an assessment.
- Participating schools will need to meet a set of requisites designed to help us reach as many students as possible in a timely manner. Please consider the following requirements:
  1. Extended i-Ready access may be added for all students in the school for desired grades and subjects. You may offer instruction for as many grade levels as you need, K-8, for reading, mathematics, or both.
  2. We will need direct access to leaders in your school who manage technology, student information systems, professional development, and curriculum to effectively launch the program.
  3. All students and teachers in the participating schools must be rostered by Curriculum Associates.
  4. All classroom teachers will need to attend a virtual training session that will instruct them how to assign and monitor the most appropriate i-Ready lessons for their students.

Please consider these criteria and us contact us at [internationalsupport@cainc.com](mailto:internationalsupport@cainc.com) if you are interested. Please also feel free to email me at [lnotarainni@cainc.com](mailto:lnotarainni@cainc.com) with any questions. Given the unique situation unfolding, we are moving quickly to accommodate as many schools as possible. It is likely that we will ultimately reach a limit to the number of schools we can serve. Regardless of whether or not this opportunity makes sense for you, we hope that your preparations and planning for remote learning are going well.

Sincerely,

*Lynn*
