

Summer Science Program

Does science come to your mind when you think of summer time? As a science teacher, I sure hope so!!! These science camps are for incoming fourth, fifth, and sixth graders. In each session, we will focus on a different branch of science (Life, Chemical/Physical, Engineering/Physics). These sessions are designed to develop an appreciation for each one of these branches of science. We will spend time focusing on some of the laws of each of these different branches of science, but most of our time will be spent experimenting with these different laws through hands-on experiments. These experiments will include dissections, chemical experiments, engineering/design experiments, and other hands on activities that the students don't have the opportunity to do during the regular school year.

If you are interested in having your student attend a fun-filled week of exploration and learning this summer, I would love to have your kiddo attend my science camp.

There will be two camp sessions:

- **Session 1** will be Monday, June 3rd-Friday, June 7th from 1:00 p.m.-4:00 p.m.
- **Session 2** will be Monday, June 24th-Friday, June 28th from 1:00 p.m.-4:00 p.m.

Both camps will be located on the Canton Campus in Room 209.

The cost is \$160* plus a \$30 fee for the cost of experiment supplies**. If your student attends two camps, the cost will be discounted at \$280 total (plus \$60 for supplies). Since we will be focusing on different branches of science in each session, students are welcome to attend both camps if they wish.

In order for camps to make, there will have to be at least 6 students enrolled in each camp. (I need a pretty accurate count of students by May 10th, so please contact me if you are interested or have questions-snettles@tcsclubbock.org.)

I hope you all enjoy the rest of the school year. I pray you and your family have a wonderful and rejuvenating summer.

Blessings,

Sarah Nettles

***The cost of the camp includes the Trinity Facility fee required by the church for the use of the building.**

****The fee for the cost of experiment supplies will include all the supplies for the experiments we will be doing. This will include dissection, chemicals for experiments, engineering supplies, etc.**

**Summer Science Camp
Registration Form**

Student's Name _____

Parent's Name _____

Address _____ Cell Number _____

Email Address _____

Emergency Contact _____

Any area(s) of concern or allergies _____

Please check the session(s) that you are signing up for:

_____ **Session 1: June 3rd-7th (1:00 p.m. to 4:00 p.m.)**

Price: \$160 (plus \$30 for supplies)

_____ **Session 2: June 24th-28th (1:00 p.m. to 4:00 p.m.)**

Price: \$160 (plus \$30 for supplies)

(If your child attends two camps, the **discounted** price for both camps is \$280 plus \$60 for supplies.)

To reserve your student's spot, please make checks payable to Sarah Nettles. You are welcome to bring it to the school or mail payments with the registration form to:
