Have You Considered The Savings On Extending The Life Of Your Cash Cans? Extend The Life Of Your Cashboxes And Inquire Today!

## Why Sonic Systems?

For proper operation of cash boxes, the bill validators must be free of contaminants. Ultrasonics have been proven to provide the required cleaning of cash boxes demanded from the casino industry. Sonic Systems has designed and engineered a line of ultrasonic equipment to provide efficient and effective washing of cash boxes and other casino equipment.

## What can Sonic Systems provide you?

- High frequency sound to create thousands of microscopic vacuum bubbles for intense cleaning.
- Significantly reduce processing time vs manual processing.
- Wash unreachable crevices and hard to reach areas.
- Piezoelectric Ultrabrazed transducers allow for greater sound energy transmission in the cleaning zone.
- Thermostatically controlled electric heater.
