

**Sonic Systems**

Quick and Efficient Cashbox Cleaning

[Click Here To View Products](#)

Regularly scheduled cashbox cleaning can extend the life of your cash cans by 2-3 years.

**DID YOU KNOW?**

**THE SONIC SYSTEMS  
CLEANING SOLUTION  
HAS A RECOMMENDED  
RATIO**

If dirt, dust, and smoke residue is building up in your cashboxes too quickly after cleaning, your dilution ratio is not likely correct. SSI514 is highly concentrated and only requires 2-6 oz per gallon of water. Try reducing the amount you're using. Be sure to rinse your cash cans after using the Sonic Cleaning System!

**SSI 514**

A biodegradable, heavy duty, non-caustic, mild alkaline liquid detergent. Phosphate free. In hospitals or medical facilities, it removes blood tissue, ointment, lubricants, salves, oils, grease, suspensions, mucous, and other body excretions from surgical instruments and lab glassware. In production and manufacturing operations, it removes contamination from metals, glass, plastics, ceramics, and rubber articles.

**Dilution:** 2-6 oz/gallon of water for difficult applications, concentrations may be increased to 12 oz/gallon of water. Use at 130-160°F. Water rinse after cleaning.

**Warning:** Harmful if swallowed. May be harmful in contact with skin or eyes. See SDS for more information. Keep out of reach from children.

**Net Contents:** 4/1 Gallon

**THIS VS THAT**

**Streamline 6**

- Wash 6 Cash Cans at a Time
- Clean 2x more cash boxes
- Cashbox Emersion Rinse Tank
- Mobile Cart with Additional Storage
- Hand Held Spray Rinse Gun (Optional Attachment)
- Hand Held Air Blow-Off Gun (Optional Attachment)
- Particulate Filtration (Optional Attachment)
- 1200 Watts Ultrasonic
- Piezoelectric ULTRABRAZE Ultrasonic Transducers
- Full 300 Series Stainless Steel Construction
- Thermostatically Controlled Heater
- Timer on Ultrasonic Generator
- Stainless Steel Ball Valve Drain

**T135-8**

- Wash 3 Cash Cans at a Time
- 600 Watts Ultrasonic
- Piezoelectric ULTRABRAZE Ultrasonic Transducers
- Full 300 Series Stainless Steel Construction
- Thermostatically Controlled Heater
- Timer on Ultrasonic Generator
- Stainless Steel Ball Valve Drain
