

KAILIL KENDRICK PHOTOGRAPHY

FEATURED

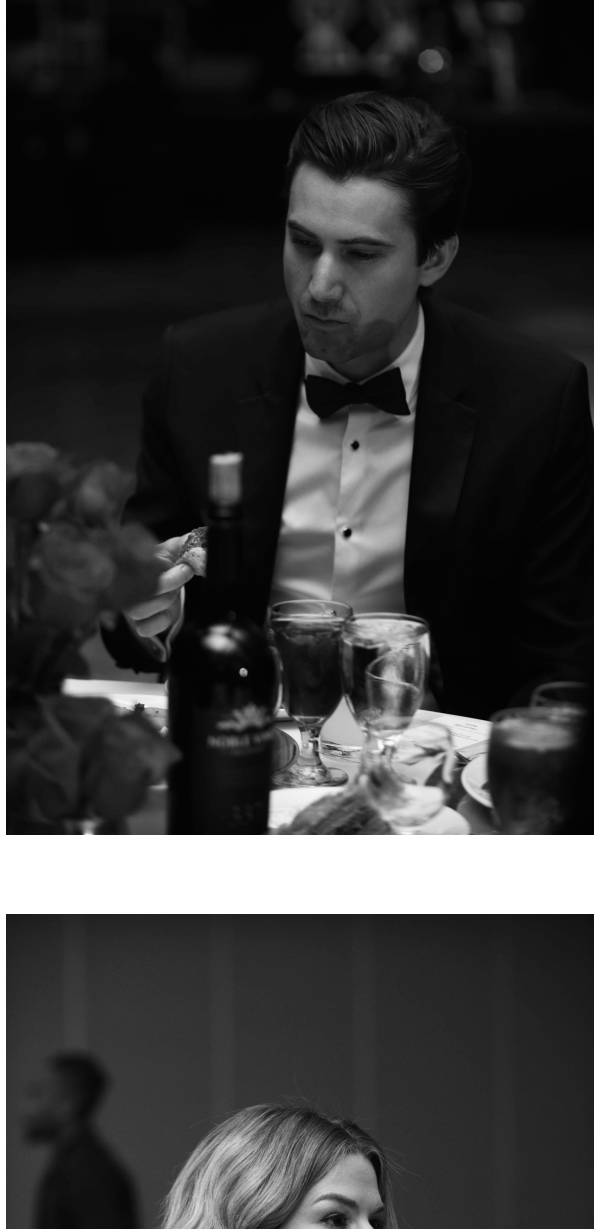

AHA HEART BALL

Throughout the years, Aflac has sponsored the annual American Heart Association Heart Ball. I had the honor of capturing that event this time, and it is an event I wish to remain a part of each year.

I am committed to providing a best-in-class guest experience when covering each event. This year, I have featured a new method of lighting that has allowed peak performance in every condition thrown at me.

LIGHTING POWERED BY GODOX

A Dual camera coverage with multiple focal lengths is provided at all times. Amongst this coverage is the opportunity for individual headshots within the event.

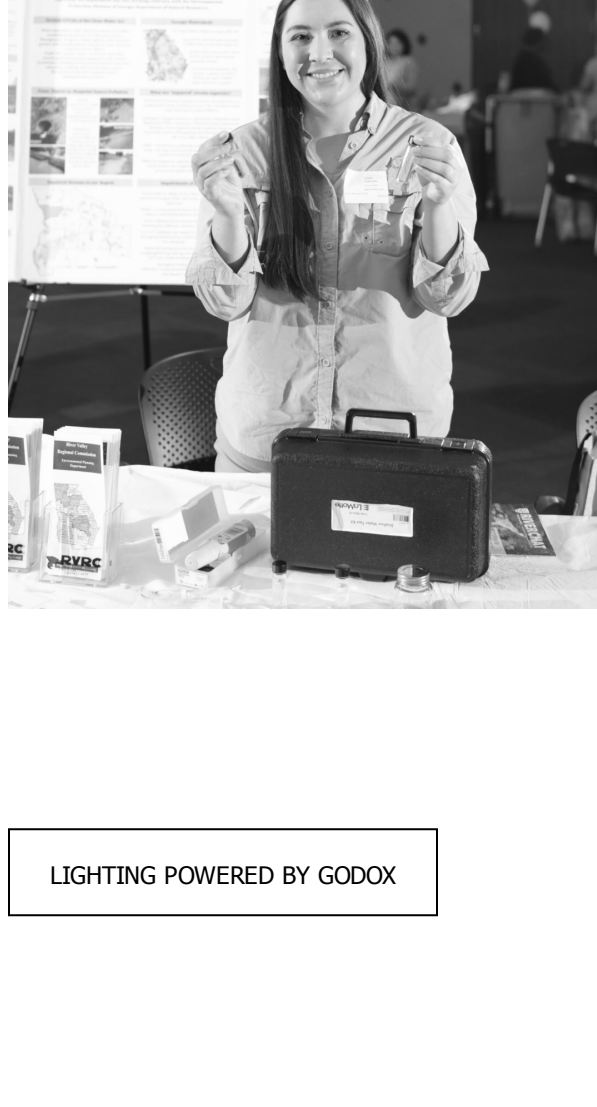

CSC GRADUATION 2022

It was a fascinating task to cover my own graduation. To watch my own peers walk across that stage. My focus that day, was to photograph the collective emotions of pride, relief, and many other wills. Closing the distance with my prime 85mm crucial in achieving an intimate and personable look at our bombastic day.

GREEN FAIR 2022

With the short time I've been at PSA, I've learned that I must be ready at all times with my gear, and I mean all of my gear. At any random timeslot, a convention or fair could be unfolding within a moments notice. Speed is of the essence when covering these such events with little to no time allowance.

EMPLOYEE PROFILES

Last minute graduating class photos was on the to do list. They were delivered of course. Courtesy of the trusty white walls scattered about the campus. The true challenge here was creating a warm and welcoming environment for the models in such a unforgiving time allotment.
