

Keynote speakers

Leroy Hood, MD. Ph.D.
CEO
Phenome Health
Seattle | USA

Hitoshi Nakagama, Prof.
President
National Cancer Center
Tokyo | Japan

Annette Peters, Prof.
Host
Institute of Epidemiology
Helmholtz Munich | Germany

Rima Kaddurah-Daouk, Prof.
Duke University
School of Medicine
Durham | USA

Christof von Kalle, Prof.
CSC | Berlin Institute of Health
Berlin | Germany

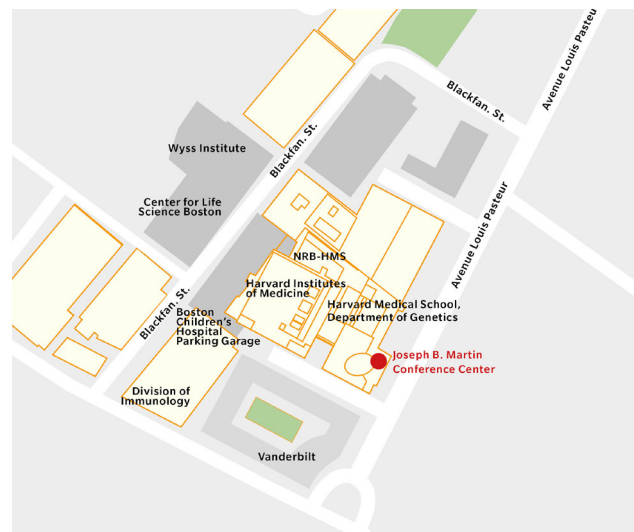

Masayuki Yamamoto, Prof.
Host
Executive Director
Tohoku Medical Megabank
Organization, Sendai | Japan

Jessica Lasky-Su, Ass. Prof.
Host
Harvard Medical School
Boston | USA

Venue

The Joseph B. Martin Conference Center
Harvard Medical School
Rotunda meeting room

Sendai,
Japan

Munich,
Germany

Boston,
USA

Pan-cohort studies The future of population health

October 12th, 2022
08:25 am – 18:05 pm EST

Hybrid event

Boston | USA

Sendai

Munich

Boston

22 hours continuous livestream

Supported by

(Multi)Omics – 08:25 a.m. EST

08:25-08:40

Welcome and opening

Jessica Lasky-Su, Ass. Prof.

Harvard Medical School | Boston | USA

Katherine A. Black, Ph.D.

Senior Manager Business Development North America
biocrates inc. | USA

08:40-09:05 EST | 14:40-15:05 CET

Keynote lecture: Beyond the human genome: Inventing the science of wellness and prevention

Leroy Hood, MD Ph.D.

CEO of Phenome Health and CSO | Institute of Systems Biology, Seattle | USA

09:05-09:30 EST | 15:05-15:30 CET

Insights from large-scale, multi-omic cohorts

Claudia Langenberg, Prof.

Computational Medicine | Berlin Institute of Health | Germany

09:30-09:55 EST | 15:30-15:55 CET

From multi-omics associations to molecular networks — making big results accessible

Gabi Kastenmüller, Ph.D.

Institute of Computational Biology | Helmholtz Munich Germany

09:55-10:20 EST | 15:55-16:20 CET

Privacy-preserving omics in medicine

Jan Baumbach, Prof.

Institute for Computational Systems Biology
University Hamburg | Germany

Coffee break 10:20-10:35 EST | 16:20-16:35 CET

Flash talks

online

in person

10:35-11:00 EST | 16:35-17:00 CET

tbd — on (multi)omics

Jan Krumsiek, Prof.

Institute for Computational Biomedicine | Weill Cornell Medicine,
New York | USA

11:00-11:25 EST | 17:00-17:25 CET

The future of population health: learning lessons from personalized healthcare

Alain van Gool, Prof.

Personalized Healthcare of Radboud University Medical Center,
Nijmegen | Netherlands

11:25-11:50 EST | 17:25-17:50 CET

Why targeted metabolomics is essential for population health

David Wishart, Prof.

The Metabolomics Innovation Centre (TMIC)
University of Alberta, Edmonton | Canada

11:50-12:15 EST | 17:50-18:15 CET

Keynote lecture:

From genetic to environmental influences

Annette Peters, Prof.

Institute of Epidemiology (EPI) | Helmholtz Munich | Germany

Lunch 12:15-13:05 EST | 18:15-19:05 CET

Summary and closing Europe session

Annette Peters/Matthias Scheffler

Precision medicine – 13:05 p.m. EST

13:05-13:30 EST

Keynote lecture: Precision Medicine

Rima Kaddurah-Daouk, Prof.

School of Medicine | Duke University, Durham | USA

13:30-13:55 EST

Importance of the intestinal microbiota and metabolomic profiling in the balance between health and disease

Alessio Fasano, Prof.

Center for Celiac Research and Treatment | Mass General
Hospital for Children, Boston | USA

13:55-14:20 EST

Expanding our genetic resources beyond European populations

Melissa Miller, Ph.D.

Human Genetics | Pfizer, Boston | USA

14:20-14:45 EST

Predicting longevity — integrative modeling of plasma biomarkers and imaging across disease space

Eugene Melamud, Ph.D.

Calico, San Francisco | USA

14:45-15:10 EST

tbd — on Pan-Cohort studies | Precision medicine

Christiane Honisch, Ph.D.

SVP Diagnostics Division | Evotec, Hamburg | Germany

Coffee break 15:10-15:35 EST

15:35-16:00 EST

Proteomics at population scale: insights from the UK biobank pharma proteomics project

Chris Whelan, Ph.D.

Data Science for Neuropsychiatry | Janssen, Boston | USA

16:00-16:25 EST

Fast-tracking precision diagnostics/therapeutics for posttraumatic stress disorder & traumatic brain injury

Nicole Bjorklund, Ph.D.

Translational Research & Development

Cohen Veterans Bioscience, New York | USA

16:25-16:50 EST

Exposomics: measuring the environmental drivers of disease

Gary Miller, Prof.

Environmental Health Sciences | Columbia University,
New York | USA

16:50-17:15 EST

Big data health

Michael Snyder, Prof.

Genetics, School of Medicine | Stanford University | USA

17:15-17:40 EST

The impact of population-based studies on population health

Jessica Lasky-Su, Ass. Prof.

Harvard Medical School, Boston | USA

17:40-18:05

Summary and closing Boston session

Jessica Lasky-Su/Katherine A. Black/Matthias Scheffler

Wrap up and social get together
