

**The 4th Annual Accounting Workshop on Experiments (AWE)
29 April 2022**

Announcement and Call for Papers

We are pleased to announce the fourth Accounting Workshop on Experiments (AWE) to be held virtually through Zoom on **29 April 2022**. AWE seeks to promote and develop accounting research using experiment. We will have the pleasure of a keynote address by **Professor Pamela Murphy**, Queen's University (Canada). A brief bio can be found here: https://smith.queensu.ca/faculty_and_research/faculty_list/murphy-pamela.php

PAPERS:

AWE seeks interesting papers that employ experiments to investigate accounting questions, broadly defined. Consistent with the developmental focus of AWE, early-stage papers are particularly encouraged. Submitted work, however, must be in the format of a completed paper and represent original work that has not been published or accepted for publication in a journal. At least one author for every accepted paper must register for AWE and be prepared to present their ideas on the online forum.

DOCTORAL FORUM: PRE-WORKSHOP

The workshop will be preceded by an invitation only dedicated Doctoral Forum on **28 April 2022**. The forum provides an opportunity for doctoral students to present, and receive feedback on, their experimental materials or preliminary results from an experiment already conducted. Presentations will be scaled to the stage of development of the work and provide an opportunity for engagement with more experienced experimentalists. Students wishing to present should submit a brief overview of no more than one page, which includes the title, the name of their supervisor(s), a description of their study and the stage of the development of their experiment and thesis. At a minimum, it is expected that students presenting in the forum will have a developed theory and research instrument. Submissions should include a cc to the student's principal supervisor. Students participating in the Doctoral Forum are expected to also attend the main workshop.
