SURFACE  
DISINFECTION &  
PROTECTION

# THE ERADICATOR DISINFECTOR + ACCESSORY KIT

The Eradicator superheated dry-vapor steamer allows for safe, effective and inexpensive chemical-free disinfection of your surfaces. Emitting steam at 356 degrees, the Eradicator has been proven to kill 99.99% of pathogens in seconds. The accessory kit turns your disinfector into a regular steamer which can be used to remove dirt and grime. Also comes with a utility cart for easy mobility of your Eradicator and accessories. As an added bonus the Eradicator instantly kills bed bugs and other critters.

# CHITOSAN ANTIMICROBIAL LONG-LASTING SURFACE PROTECTANT

Our Chitosan Antimicrobial is an all natural, non-toxic sustainable product. Chitosan provides an invisible protective shield on surfaces and has been tested and proven to defend against MRSA, Staph, E. Coli, CRE, VRE, MRSP, Pseudomonas, CRKP, Feline Coronavirus and others for 35 days - 4+ months. Protect your facilities and keep your customers and employees protected today by curbing the spread of infection onto treated surfaces.

## All-Natural, Non-Toxic Surface Disinfection & Protection

Protects your surfaces for 4+ months!

### What is Steam+Shield™?

One-Step, All-Natural Surface Disinfection & Protection. Steam applied antimicrobial solution creates an invisible, long-lasting protective shield. The process protects both hard/soft, porous/nonporous surfaces from:

- ✓ Viruses
- ✓ Bacteria
- ✓ Mold & Mildew
- ✓ Fungi

**Steam + Shield protects 24/7 - eliminates the need for daily disinfection & consistent surface wipe-downs throughout the day!**

### Unparalleled Disinfection Process

-  High temperature steam deep cleans and disinfects surfaces
-  Steam penetrates surface pores and provides a uniform coating of SHIELD
-  SHIELD provides long lasting protection
-  Recleaning with thymol-based solution will maintain the persistent-kill coating
-  Steam application of SHIELD is a patented process

 <p><b>User-Friendly</b></p> <p>Solidly designed portable easy-fill tanks high working capacity simple clean-up/maintenance.</p>	 <p><b>On-Contact Kill</b></p> <p>High temperature steam has long been recognized by CDC, EPA and NIH as an extremely effective on-contact pathogen killer - kills 99.9% of infectious viruses (Including coronavirus family), bacteria and germs.</p>	 <p><b>Deep Clean Without Chemicals</b></p> <p>The natural power of steam eliminates the need for toxic chemical disinfectants.</p>
---	---	---

**Produced Naturally**

Our active ingredient is Chitosan, an abundant and renewable natural resource derived from the recycled shells of crabs and other crustaceans – at least 10 billion tons produced each year

**Field Proven**

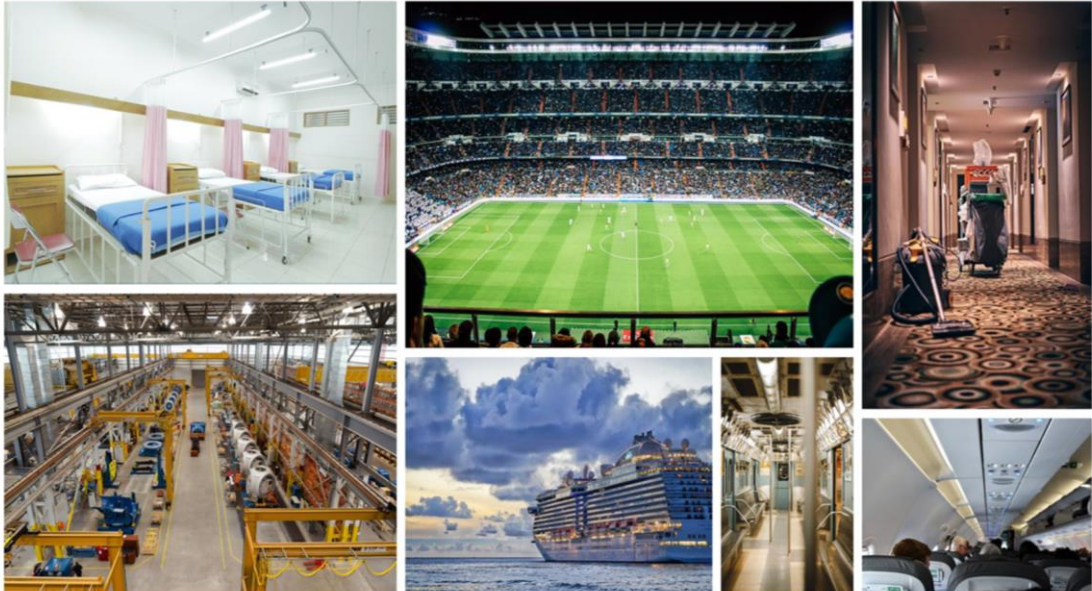

Chitosan has been used for more than a century in a variety of application including in medicine (treat obesity, high cholesterol, high blood pressure), as a dietary additive/supplement and for wound care.

**Safe**

Low PPE (Personal Protective Equipment) (this should just appear when you hover over PPE), High **PEL (Permissible Exposure Limit) (this should just appear when you hover over PEL)** - Chitosan Shield is hypoallergenic and can be sprayed in a mist without lung damage
