

12/1/2020

Greetings from Mesquite Community Education Foundation,

This is a letter of hope. This is a letter of enthusiasm. This is a letter of opportunity.

2020 is almost over and we find ourselves at this special time of year. The blessings we have from loved ones far and near, our friendships longstanding and newly gained, and hope that our future will be filled with many successes and a less stressful time!

At Mesquite Community Education Foundation, we have been ready to organize our fall and spring fundraisers, but safety of everyone is what has prevented us from having events that bring our community together. At MCEF, we are so proud of all the monies we have given out to our graduating seniors - \$71,000 in the past four years! This accomplishment could never have been achieved without your help and continued support of our efforts.

Our enthusiasm is contagious. Our board bleeds Bulldog green, black and white, and our efforts to help the Class of 2021 knows no bounds.

Let's let our teachers know that their time and talents to educate our students are being supported. Let's let all of our students know that in these trying times of distance learning, that our community values their hard work. Let's let the parents know that we feel the sacrifices they have had to make for distance learning; be it quitting their job to stay home, or asking friends and family to help their children learn.

Now we ask you to take this opportunity to contribute to the VVHS Class of 2021. This opportunity to give any amount, big or small, can help us to know that our community is strong, its commitment to our youth is unwavering, and with hope and enthusiasm, help more of our students achieve their goal of higher education.

With the utmost respect, thank you for your generosity.

Darlene Nelson, Chair
Mesquite Community Education Foundation
